

I just want you to know how important to me and my family it is to have K-Love on the radio. It is the only station we listen to. There is no other station like K-Love available in our area. It is the only way we get announcements about local events in our community that interest us. Our 10 year old son loves it too and it is the only station I can be sure he won't hear inappropriate information. If K-Love were displaced, it would be a huge loss to my family and our community.
